

27th Spring School on Particles and Fields

Chang Gung University

Taoyuan, Taiwan, April 2-5, 2014

Welcome to SS2014

Started in 1986, the annual Spring School on Particles and Fields has always been the most important gathering for all high energy theorists in Taiwan, including students, postdocs and faculty members. The 27th Spring School on Particles and Fields in Taiwan will be hosted by Chang Gung University at Taoyuan, Taiwan during April 2-5, 2014. The four topics that will be covered this year are Neutrinos and Physics Beyond the Standard Model, Gamma-Ray Burst and Cosmology, Holographic QCD, and LHC Physics. The deadline of registration is March 17, 2014. We hope that all participants and lecturers will enjoy this event, and we thank the generous contributions from our sponsors.

Lecturers

Stefan Antusch	(U. Basel, Switzerland)	Neutrinos and BSM Physics
Masayasu Harada	(Nagoya U., Japan)	Hadron Phenomenology
Shih-Chieh Hsu	(U. Washington, USA)	LHC Physics
Peter Mészáros	(Penn. State U., USA)	GRB and Cosmology
